

Raphaël CHAPPERT

Full-stack software product engineer

Making the practical accessible and enjoyable

Always eager to learn, grow, and put my skills to work on meaningful projects, I am a **fullstack developer** with **4 years of experience**, and a keen eye for **design** and user experience. I am passionate about **crafting high impact products with the user and the brand in mind** that also address social, environmental, and digital challenges.

Experience

2021 - 2025 Fullstack developer front-end oriented - Impacti

React Node.js Redux MongoDB MaterialUi Typescript

Design and development of a performant, user-centered SaaS web application for carbon accounting (React, Node.js, Redux, Typescript)

Built a customizable, dynamic dashboard to manage high-volume complex data, featuring dynamic filtering, modular visualizations, real-time data updates and optimized performance for a seamless user experience

Led the full UX/UI redesign in collaboration with a design agency, improving the user journey and design system (Figma, Material UI, Storybook)

Developed advanced features such as a notification center, admin area, role and permission-based access management, and hierarchical data structures

Actively contributed to software quality through maintainable, clean code, code reviews, and documentation within an Agile/Scrum team

2021 Web communications officer - Médecins du Monde

Led the redesign and management of the website, including traffic monitoring, SEO optimization, and coordination with external partners

2019 Web communications officer - Surfrider Foundation

Launched and managed the new website, producing SEO-optimized science communication articles to strengthen the organization's online presence

2018 Communications and outreach intern - UNESCO

Planned and executed scientific communication projects, creating and developing both web and print communication and logistic materials

Projects

2025 Web collaborative mapping platforms Next.js Mapbox

Contributed to the development of a mapping platform on suburban culture, using Next.js, React, TypeScript, Tailwind, and Mapbox

Designed and developed, with AI assistance, a collaborative mapping platform showcasing social and solidarity economy initiatives in France, built with Next, React, TypeScript, Tailwind, Shadcn, Mapbox, Supabase/PostGIS

Education & Training

2020 Web Development Bootcamp - The Hacking Project

2018 Master in International Relations - Sciences Po

2015 Erasmus, Géography - Université Autonome de Madrid

Soft skills

Collaborative spirit and proactivity

Clear and engaging communication

Tech curiosity

Fast learner with strong execution skills

Stacks

React | Next | Typescript

Node.js
